

## PRESS INFORMATION

### The most popular billiard games for the PC!

soft Xpansion presents *Billard Deluxe* - a perfect 3D-billiard simulator for pool, snooker, Russian billiard and carambolage

(Bochum, April 2007)

*Billard Deluxe* is a brand-new software for everybody who wants to have a break while working on the computer or likes to relax and enjoy billard at home after a tough working day!

The program includes the four most popular games: pool (with five subtypes), snooker, Russian billiard and carambolage. Besides, *Billard Deluxe* allows the player to set up the game environment (interior of the playroom, tables, cues), choosing them from several alternative designs and style variations.

The powerful physics engine used by *Billard Deluxe* (Newton Game Dynamics SDK) guarantees realistic billiard games with high-quality graphics. It is possible to play against each other on a single PC or against an opponent on a network. Besides, the computer can also be the opponent. The artificial intelligence of the program provides a choice of opponents with different abilities and levels of experience.

The most important features of *Billard Deluxe* are:

- The most popular billiard games in one single product
- Realistic movements and high-quality graphics
- Perfect set of options for a realistic game control (shot strength and angle, cue movement, position etc.)
- Shows the expected ball path before the shot
- Single and multiplayer modes on a network
- Environment can be varied
- Detailed glossary, teaching the most important terms from the world of billiard
- Extensive, understandable explanation of the billiard rules

The recommended retail price for *Billard Deluxe* is €19.95.

System requirements:

Windows Vista, XP (all SPs) or 2000, 256 MB RAM, Pentium processor with 800 MHz, 300 MB of hard disk space, 3D-graphic card with 128 MB, compatible with DirectX 9, CD-ROM drive (for the installation), mouse
