

## PRESS RELEASE

soft Xpansion presents *PDF Master Office Edition 3.0* – value for money with server-based creation of PDF files for small networks

(Bochum, June 2007)

From now on, with PDF Master Office Edition, soft Xpansion offers a second solution for the server-based creation of high-quality PDF files. Like PDF Master Server Edition, PDF Master Office Edition provides a centralized conversion of documents into the PDF-format. The main difference is that the product has been designed for small networks with up to five clients. It automatically sends the created PDF-documents back to the computer from which the conversion request has been forwarded. In addition, it is possible to send files directly by e-mail as well as to pass them on to a real printer to get the result on paper. There are various PDF-settings available for each client: general document settings, image management, PDF-security, watermarks, stamps, digital signature and a lot more.

### Highlights:

- Centralized creation and convenient management of PDF documents on local networks with up to five clients
- Use of the kernel technology *PDF Direct*, which has already been implemented in various PDF products worldwide
- Perfect organization of the document workflow in only a few steps
- Automated distribution of the created PDF files to users
- Various options for delivery and distribution: into a shared folder on the network or into a local folder, sending as an e-mail, printing on paper
- Easy maintenance and user management
- High performance even with high network loads
- Remarkable price/performance ratio
- Easy Upgrade to higher amount of clients

### System requirements:

- Pentium IV or higher
- 512 MB RAM
- 10 MB hard disk space
- CD-ROM drive
- Mouse
- Windows 2000 / XP / 2003 / Vista

The price is €59,-. Upgrades to PDF Master Server Edition are possible. Please go to <http://www.soft-xpansion.com/index.php?p=/pdftech/pdfoe3/> for further details about the product.

Comparison between PDF Master Office Edition and PDF Master Server Edition:

Feature	PDF Master Office Edition 3.0	PDF Master Server Edition 3.0
Number of users (clients)	up to 5	According to licence, open to unlimited extension
User groups	No (only one user account)	Yes
Centralized definition of PDF settings by administrator	No (documents will be created according the settings defined by the author)	Yes
Multithread-mode	No	Yes (taking advantage of the capabilities of multiprocessor systems to process large document amounts)
Price	€59,-	from €495,-
