

PRESS INFORMATION

soft Xpansion presents *PDF Master Server Edition 3.0* – server-based creation of PDF files

(Bochum, January 2007)

PDF Master Server Edition 3.0 allows the convenient server-based conversion of documents into PDF files on a network. Conversion requests can be sent with user-defined settings by any application with printing functionality and with access to network printers. Besides, profiles can be assigned to each user (client). The application offers all parameters and options which are necessary for the creation of high-quality PDF files. As a server solution, PDF Master Server Edition 3.0 possesses special functions for the control of the network load as well as for the flexible sharing of the created PDF files.

New functionality:

- Support of PDF specification 1.6
- JPEG2000 support
- Conversion in multithread mode
- Adding watermarks and stamps to the PDF documents
- Digital signature of PDF documents
- SMTP support with authorization (for sending by e-mail)
- Optimized assistant for job processing
- Optimized print order monitor
- Runs on Vista

Prices for PDF Master Server Edition 3.0 start from €495,- for networks with up to 10 clients and end at €2750,- for up to 100 clients. For larger client quantities, special offers are available. Details about the product can be found on <http://www.soft-xpansion.com/index.php?p=pdftech/pdfserver3>.
