

PRESS RELEASE

New CD-ROM Versions for Perfect PDF 6 Product Family

(Bochum, October 12, 2010) soft Xpansion has released three more CD-ROM versions of the company's Perfect PDF 6 product family. In total, the family now consists of five CD-ROM programs and one download-only version. Perfect PDF 6 offers various sets of functionality to create, edit and display PDF files.

Soft Xpansion allows for the global importance of the PDF file format with a broad product range. An overview about the various product editions is available on the [product page](#). The section "Perfect PDF 6 – Comparison Table" at the bottom of the page shows the details. The comparison table helps users to find out which version is the best to fit their specific needs.

All editions are available as single user and as [network licenses](#). Quantity discounts for network licenses already apply for two clients.

Three more Family Members on CD-ROM

Perfect PDF 6 **Editor** is focused on the editing of existing PDF files and the creation of completely new documents from empty pages, including PDF forms. Perfect PDF 6 **Converter**'s task is the "pure" conversion of any printable files into the PDF format. It includes integration into Windows Explorer, web browsers and into the following Microsoft Office products: Word, Excel, PowerPoint and Outlook. Perfect PDF 6 **Commentator** offers a wide range of annotation tools for placing and editing comments in PDF files. Besides, the design and editing of PDF forms is possible with the Converter.

Distribution Channel, Versions and Licenses

The products may be bought at various e-tailers on the Internet (for example at [eknow-how.de](#), [amazon.de](#), [softwareload.co.uk](#)). Download versions, CD-ROM versions, upgrades for users of version 5 and trial versions are available.

Multi-user licenses are available too and quantity discounts already apply with the purchase of 2-user licenses.

Special Features of Perfect PDF 6

- Six products for the fulfillment of various PDF tasks
- Products run on 32 and on 64 bit computers
- Made for Windows 7, Vista and XP
- Modern user interface (ribbon design like in Microsoft Office 2010) makes it easier to navigate through the programs. Thanks to this interface, the

program features and commands are grouped more clearly than in "classical" windows software.

- For more complex tasks, a contextual help system and information bars have been integrated into the programs. Therefore, in these cases it is not necessary to consult the help file and/or the printed manual.
- Separate windows for editing and commenting of PDF files as well as several reading views make it easier to work with the applications.

System Requirements

Pentium 4 or higher, 512 MB RAM, 50 MB on hard disc, Windows 7/Vista/XP (32-bit and 64-bit), mouse. Activation of the programs via Internet or e-mail is required.
